EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. John Pienkos on September 05, 2003.

The application has been amended as follows:

A) Cancel claim 15.

2. The following is an examiner's statement of reasons for allowance: The prior art discloses a system for providing a control signal to an alternator having an outer and inner loop, which provide control signals based on signals of the alternator. However, the prior art fails to show that a first calculation element receives a first, second and third indication of output voltages and based on that, feedback signals are indicated and a second calculation element creating a second feedback signal, an intermediate signal element receiving a target input and a first feedback signal and a control signal element, which receives an intermediate signal and the second feedback signal and in response provides a control signal.

With respect to the After Final amendment dealing with claim 15, it was noted to the applicant's representative that such amendment would constitute new grounds of rejection. It was decided to cancel claim 15.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

It is to be noted that this Office Action is being sent on September 05, 2003. The response by the Applicant was sent via fax on October 21, 2002. The time difference was due to the reason that the original response sent on October 21, 2002 was lost and the Examiner was not aware of the response until the applicant's representative was contacted on September 04, 2003 by the Examiner. The applicant's representative provided another copy via fax of the response on September 04, 2003 with a confirmation of the original faxed response sent on October 21, 2002. All documents have being placed in the file.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Julio C. Gonzalez whose telephone number is (703) 305-1563. The examiner can normally be reached on M-F (8AM-5PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nestor Ramirez can be reached on (703) 308-1371. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
